Static Analysis Results

Static Analysis Results

- Context Insensitive Results

Static Analysis Results

- Context Insensitive Results

  eg:

```
void foo(A p1) {
    A a = new A(); // O1
    A b = new A(); // O2
    global = b;
    bar(b);
    bar(a);
}
```

```
void foobar(A p2) {
    A c = new A(); //O3
    bar(c)
}
```

```
void bar(A p3) {
    A d = new A(); // O4
    p3.f1 = d;
}
```

Static Analysis Results

- Context Insensitive Results

  eg:

```
void foo(A p1) {
    A a = new A(); // O1
    A b = new A(); // O2
    global = b;
    bar(b);
    bar(a);
}
```

```
void foobar(A p2) {
    A c = new A(); //O3
    bar(c)
}
```

```
void bar(A p3) {
    A d = new A(); // O4
    p3.f1 = d;
}
```

Objects O1, O2, O3 will form a SCC – All three objects will be Escaping
